

For our European headquarters in Duisburg we are looking to strengthen our team with a

Service Technician (m/f/d) for the Wind Division

You have experience as a technician/mechanic in the wind industry and would like to work for a global market leader for wind turbine main gearboxes? ... Come and join us!

You want to work all around Europe and beyond? ... Travel with us to the various wind farms in Europe and neighboring countries! There is no need to move to Duisburg. You can start your work from home.

Are you curious about our company and the job? ... Send us your application and let's talk about your future!

Your tasks in our future-oriented company include:

- Service, maintenance and repair of gearboxes for wind turbines.
- Replacement of bearings, shafts and auxiliary components.
- Endoscopies and frequency measurements on gearboxes.
- Creation and maintenance of service documents.
- And other interesting tasks.

Your strengths should be:

- Successfully completed vocational training and several years of experience in the wind industry.
- High level of commitment, flexibility and the ability to work in a team.
- English (written and spoken).
- And, of course, a willingness to travel.

Your way with us offers you:

- A job with a future with the world market leader for main wind gearboxes.
- Collaborative structure and open culture in the company.
- Exciting and varied work in a great team.
- A permanent job with performance-related pay.
- 30 days' annual leave and a company pension scheme.
- And much more, which we would like to tell you in a personal interview.

If we have piqued your interest in an exciting and unusual job, we look forward to receiving your application.
